comfortable. In your choice of four iconic colours: Mystic Black, Mystic Silver, Mystic Green and Mystic Pink.

## **Enjoy the immersive sights and sounds**

Take in the vibrant colours of Galaxy Tab S7 FE 5G's 12.4" display. The vibrant screen lets details shine, and the cinematic experience is enhanced with the incredible sound by AKG. Dual speakers and Dolby Atmos create immersive surround sound to place you in the centre of the scene onscreen.

## **Level up your gaming — or your productivity**

Equipped with a high-performing Snapdragon 750G chipset, Galaxy Tab S7 FE 5G keeps your streaming and gaming smooth and fast. You can multitask with ease and launch up to three apps all at once. And with over 1TB of storage when you use a microSD card, your important files can stay at hand.

## **Connect, download and enjoy, 5G**

5G connectivity changes the game — and your work. Incredible speeds let you download in a flash, and low latency keeps your connection strong with little lag. Stay one step ahead on the next-generation data network and discover new ways of sharing and experiencing content online.

## **The battery to take on your busy days**

Hours and hours will go by before you have to charge up the 10,090mAh (typical) battery. It lasts up to 13 hours when you're watching videos, giving you plenty of time for a streaming marathon. And with 45W Super Fast Charging, you can get back to full charge quick - around 90 minutes.

## **Stay clear and centred on camera**

Turn your Tab to landscape mode for a video call and the relocated front camera keeps you in the center of the screen. When you're talking, your voice comes through clearly with the 3 microphones embedded around the display.

## **Feels like a real pen but is so much more**

With low latency and a soft tip, the included S Pen offers a natural writing experience. More than that, it turns handwriting into text in real time and lets you edit text with simple gestures. When you're done, it magnetically snaps to the side for easy carrying — no need to charge S Pen.

## **Turns handwriting into tidy text**

Your writing instantly turns into text for easy organisation. Write in a search bar or the title bar of Samsung Notes with S Pen, and then take down notes and convert those to text at a tap.

## **Title and tag it**

While you're taking notes, the app will automatically recommend titles by analysing the content and suggests hashtags to keep your notes organised.

## **Express your inner artist**

The PENUP app is a social network for people who like to draw and interact with fellow creative types.

## **Ready for your masterpiece with Clip Studio Paint**

Use S Pen together with Clip Studio Paint to bring your vision to life. Illustrate and create comics with the help of storyboarding, inking and other tools. The app is yours free for 6 months. Time to create art like the pros.

## **Design like a professional**

Start designing for free with thousands of customisable templates. Design marketing materials to presentations to social media posts all in the one place. Want to take your designs to the next level? Try Canva Pro and unlock beautiful content and time-saving tools.

## **Let your thoughts flow with Noteshelf**

Noteshelf gives you more choices in how you take notes. Whether you prefer using S Pen or typing, it's fluid note-taking that feels natural as you learn or create. With the Noteshelf Club, you can access hundreds of notebook covers and paper templates free, without a membership.

## **Be your most productive with Samsung DeX**

Samsung DeX gives you access to your apps and files and lets you open things easily through the intuitive, simplified task bar. The App order layout syncs up with your App screen so you quickly find the app you want. Use it with the Samsung Keyboard for even more convenience.

## **Making the most of your multitasking**

Multiply your screens with the enhanced multitasking experience on Galaxy Tab S7 FE 5G. App Pair allows you to launch up to three apps at once — all you have to do is set it up on the Edge panel. These apps can be custom arranged to your specific needs, even with multiple instances of the same app.
