ensures ultimate comfort in any position. In addition to adjustable lumbar support with a cold-pressed thermoplastic polyurethane (TPU) back pad, the chair features 360°-swivel 4D armrests and a detachable magnetic headrest — all working in unison to provide the ideal gaming position. Plus, the generous 55-centimeter-wide seat allows users of all sizes to settle in for marathon gaming sessions. For a finishing touch, the Courser also features concealed RGB lighting.

Innovative Recline System

Dynamic Synchronized Recline system

The ROG Dynamic Synchronized Recline system keeps the head in an optimal position as the user leans back, eliminating the awkward stretched-back sensation common with traditional gaming chairs.

Up to 155° Recline

The ROG Courser offers smooth, continuous 90°–155° recline for the perfect position when gaming or relaxing. The enhanced rocking mechanism provides added comfort, delivering a restful experience.

4D Armrest with 360° Rotation

Full 4D Adjustability

Full 360° rotation, height, width, and depth adjustments ensure the perfect arm position.

Mobile Gaming Mode

The ROG Courser features a mobile gaming mode that works with its reclining mechanism. The armrests automatically adjust to support arms in an ergonomic position, ensuring comfort whether sitting down at a desk or lying down for mobile gaming.

4D-Adjustable Lumbar Support

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The depth and height of the lumbar support can be adjusted to ensure the spine is perfectly aligned at all times.

Concealed RGB Lighting

The concealed RGB light strips embedded in the premium transparent leatherette material showcase up to eight vivid colors and feature six preset effects. Even when off, these hidden strips enhance the chair's sleek, premium aesthetic. The rear ROG logo also features RGB lighting, with brightness and effects easily controlled via the chair's rear buttons. Powering up is simple — just connect the Courser to a power bank or laptop via USB-C®.

Detachable Magnetic Headrest

The detachable magnetic headrest is fully adjustable to suit users of different heights. This flexibility ensures proper head and neck support to reduce fatigue and offer more comfortable gaming or working experiences.

Cold-pressed TPU pad

The cold-pressed TPU lumbar pad ensures ample airflow and optimal support when seated.

Ultrawide 55cm seat

The spacious 55-centimeter-wide seat is specially contoured for unrestricted comfort in any position.

Hybrid Scenario Versatility

The Courser is designed to excel in any situation—gaming, streaming, working, or relaxing. Its sleek design and ergonomic features ensure consistent comfort and style at all times.
