QNAP LS-MCAFEE-3Y software license/upgrade 1 license(s) Delivery Service Partner (DSP) 3 year(s)

Model: LS-MCAFEE-3Y

Manufacturer: QNAP

EAN: 4711103084731

Product Code: 1642122

R3,185

Advanced antivirus protection on QNAP NAS

McAfee Antivirus provides dependable protection to keep your files and data safe from viruses. With McAfee Antivirus, you can start or schedule scans for virus threats, manage infected files, prevent viruses spreading through file sharing, and receive the latest virus definitions to combat emerging virus threats.

Virus scanning gets faster

We all know traditional virus scanning tasks are time-consuming. It makes us hesitate to run jobs regularly and increases the risk of infection. QNAP NAS provides quick and automatic virus scanning features, allowing you to ensure that your NAS files are clean and secure.

- Virus definition update

Determine the frequency for auto-update checks to ensure your NAS is protected against emerging threats.

- Smart scan

Smart scan detects and skips previously scanned files.

- Multi-thread scanning

Powerful NAS CPUs can divide a scanning task into multiple threads for parallel processing.
