Model: CGR-SDN-GRB

Manufacturer: COUGAR

EAN: 4711649770020

Product Code: 1643482

R8,181

Comfort Fuels Your Fast.

Speeder NEO takes the Speeder series into its next lap, channeling supercar energy into performance and comfort. Inspired by the world of racing, its sleek frame rolls the aesthetic flair of a performance car chassis into the room, and its ergonomic features help you maintain a healthy posture whether you're racing against the clock at crunch time or seizing that in-game clutch moment.

Chenille Yarn mesh provides responsive comfort, while precisely tunable backrest height, lumbar and seat depth ensure a perfect fit. 3D Hyperrotation armrests rotate within a 225° range, allowing multiple positions whether you're on mobile, console or reclining. The Speeder NEO adds multilayer

cushioning support to the winning formula, refining everything that made the original Speeder fast – only now it's smoother, smarter and more supportive than ever.

Need For Speed

The sleek, racing car-inspired design brings the dynamic energy of the racetrack to your home office or gaming setup. Elements of supercar build are assimilated into the Speeder NEO's architecture: the X-frame forming the backrest's support structure offers both strength and stylishness, and the finish replicates the look of premium automotive coatings.

Body Friendly

The backrest indents with a curve to accommodate the natural contours of the waist, enhancing support and comfort for the lower back. A waterfall seat slopes downward to reduce tension and friction on the back of the thighs: this feature relieves knee pressure and improves blood circulation to the lower limbs, promoting equal weight distribution across the seat pan due to its contoured construction.

More Layers. More Cushioning.

The Speeder NEO's multi-layer cushioning built into the seat lets you enjoy the comfort of a sofa with the performance and agility of supercar-inspired design.

Tactile Comfort

The Speeder NEO is engineered for long-term comfort. The backrest is made from Chenille Yarn mesh for a responsive, breathable seating experience, while the headrest and seat are covered in soft, elastic fabric: perfect for long hours of gaming or work.

Support System

3D Hyperrotation armrests provide a wide range of motion, supporting various arm positions, while the headrest adjusts for personalized comfort.

A Perfect Fit

Precisely tunable backrest height, lumbar support, and seat depth allow you to fine-tune the chair to your exact anthropometry for maximum ergonomic benefit.

Put Your Feet Up

The retractable footrest offers additional leg support for added comfort, especially during extended periods of use.

Adaptive Damping

The Speeder NEO's tilter automatically modulates the speed and resistance of recline to body weight without needing manual operation, absorbing impact from sudden movement for a smoother and more controlled backwards shift. All you have to do is lean back, and lock in your recline angle within a 45° range with the easily accessible control switch.

Safety First

The Speeder NEO is TÜV certified, conforming to BIFMA safety and durability standards.

BEST IN CLASS: Class 4 Gas Lift Cylinder

The class gas lift cylinder is TÜV certified, guaranteeing safe, reliable and smooth height adjustment.

Noiseless Mobility

A sleeve on the caster's spoke eliminates noise, allowing the Speeder NEO to glide across any surface as quiet as it's effortless. At 75mm diameter, the plus-size wheels vastly enhance stability.
