EAN: 4710483778438

Product Code: 1643485

R15,008

The Second Spine

The Terminator Elite's central structure mimics the form and function of a second spine, shaping the backrest to align with the natural curvature of your back with a new, flashier, more exotic metallic gold or silver finish options.

Perfect Assist

Optimal lumbar support mechanics completely eliminate stress and fatigue by exerting just the right amount of resistance against your lower back, allowing you to sustain perfect gaming form and peak performance over longer periods of time.

Cool Under Pressure

Premium mesh dissipates body heat where it's most concentrated, keeping you fresh, cool and dry even when you're operating at max intensity.

Cover Your Six

The adaptive-density foam fitted to the Terminator's fiber reinforced polymer (PAFRP) backrest provides unparalleled strength and durability, subtly adapting to your movements for total flexibility and comfort.

Put Skin In The Game

The Terminator Elite is upholstered in a mix of premium Hyper-Dura leatherette – 12 times more resistant to wear and tear when compared to regular coverings – and plush velvet for a touch of flamboyance, decadence...and just the right amount of excess.

The Human Factor

The Terminator Elite is equipped with customization features that can tailor the height, headrest tilt and recline angle to any individual preference. The armrests are also independently adjustable in all 4D parameters: height, width, depth, and swivel. Position yourself in the sweet spot with ease without ever having to compromise the ability to execute your moves.

Stay Grounded

Everything starts from the foundation: with a model-exclusive extra large 29.6" aluminum wheelbase and 3" casters guaranteeing stability, the Terminator makes sure you stay firmly rooted and anchored throughout your game.
