R3,862

Transform a USB-C laptop into a multi-monitor workstation with DisplayPort and HDMI video, plus USB-A and USB-C ports

Connect up to three 4K displays (2x DisplayPort and 1x HDMI) through a single USB-C port, while also providing USB-C, USB-A, and Gigabit Ethernet connectivity.

Uncompressed Video Over USB-C

Connect three 4K displays (2x 4K 60Hz and 1x 4K 30Hz) with 2x DP and 1x HDMI through a single USB Type-C port with uncompressed video powered by your laptop's native GPU. Drive demanding workflows with high-performance visuals and no software compression

Driverless Deployment

Features plug-and-play functionality on Windows with no drivers or software required*. It is engineered for scalable, zero-touch rollouts across shared workspaces, corporate environments, and BYOD deployments.

Flexible, High-Speed I/O

This dock is equipped with 4× USB-A 5 Gbps ports and 2× USB-C 10 Gbps ports (including one with 15 W PD), providing support for both legacy peripherals and modern high-throughput devices without compromising performance. A Gigabit Ethernet port ensures a reliable wired network connection.

Mounting and Security

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
