Take your business to another level with large format innovation from a multifunction 24-inch desktop printer. Scan, copy, repeat images, enlarge and shrink prints without digital source files to meet various applications of CAD drawings, variety of marketing collaterals in different sizes including posters, banners, labels, envelops and more.

First-of-its-kind versatility

The TC-21M has a built-in A4 flatbed scanner, not limited to simple scanning. It enlarges prints up to A0, creates posters by scanning several images, copies and repeats images to create personalised wrapping paper and smaller labels, without relying on digital source files, unleash endless creativity.

Affordable high quality

Variety of prints can be created without relying on digital source files. Time is saved in trimming posters printed with minimised margins. High-quality pigment inks with advanced image processing, result in denser colours and sharper image*. These lead to impactful prints without compromise on quality.
*Compare to predecessor model, imagePROGRAF TC-20M

Smooth workflows

Easily set up with shaftless roll holder and simplified procedure. The tiltable operation panel allows a better view of information. The built-in auto-sheet feeder allows printing without intervention, supports different applications with various cut sheet sizes. Print from a USB memory without PC operation and produce smaller or larger prints with scanning function.

Best office support

The TC-21M adds more value than typical office devices with its all-in-one scanning, copying, and printing capability, using cut sheets or roll paper as needed. Besides printing standard documents, you can enlarge materials such as notifications and posters to large format, up to A0 size, and shrink larger materials to create name tags or labels.

Green at heart
