Heavy-duty desktop computer wall mount bracket featuring adjustable widths, toolless adjustment, and intuitive keyhole mounting

Professional PC Wall Mount Bracket is designed to meet the needs of IT professionals seeking a space-saving and convenient solution for their workstation setups. The supported desktop towers widths are between 1.9 to 7.8 inches (50 to 200 mm). This heavy-duty wall mount system is constructed of a 0.09in (2.5mm) thick powder-coated SPCC steel sheets, ensuring durability and strength. With a weight capacity of up to 39.6lbs (18kg), it provides a secure mount for desktop computers. Experience effortless installation with the keyhole mounting to speed up deployment.

Space-Saving Open Design

Optimize your workspace by freeing up valuable desk or floor space. The computer wall mount system enables convenient concrete/wood stud wall mounting of a computer chassis. Alternatively, you can mount the computer to the side of a desk, enabling additional installation location options.

Enjoy unobstructed access to drive bays, peripheral ports, and wiring with the open design of the PC holder.

Toolless Adjustment

Quickly adjust the width of the PC wall mount bracket using the knobs. Included spacers protect the chassis and ensure a snug fit. The spacers allow different CPU sizes ranging from 1.9 to 7.8 inches (50 to 200 mm) up to Small Form Factor (SFF) computers.
