

Verbatim DataLifePlus BD- R 50 GB 25 pc(s)

Model: 43749

Manufacturer: VERBATIM

EAN: 023942437499

Product Code: 1644656

R2,643

Verbatim's professional optical media feature tighter specifications than the standards given by the relevant standardisation bodies.

Tighter specifications ensure better compatibility with writers and recorders. This results in higher recording quality, thus ensuring longer archival lifetime and better readability.

You can recognise Verbatim's professional optical media by the DataLifePlus branding. The advent of Blu-ray technology has led to the introduction of high capacity storage discs to meet the demand caused by the rapid growth of high definition television (HDTV).

Blu-ray discs get their name from blue laser technology. The shorter wavelength of the laser is the reason it is blue in colour. The blue laser has a wavelength of 405nm compared with the wavelength of 650nm for DVD which utilises red laser technology. The benefit of having a blue laser with a shorter wavelength means it is possible to write smaller data pits and therefore vastly increase the amount of data on the disc.

Blu-ray discs offer 3 to 5 times the storage capacity of a standard recordable DVD disc, enabling the recording, rewriting and playback of high definition video (HD).

For use only in drives or recorders that support Blu-ray Discs without cartridge.
