R1,731

140W of Power Across 4 Ports

Designed for maximum versatility, this mini GaN wall charger delivers up to 140W total output through its four ports. Power a laptop, tablet, and multiple mobile devices all at once while the TFT display gives instant feedback on each port’s performance. With PPS (Programmable Power Supply) technology, the charger intelligently adjusts output to each connected device for fast, safe, and efficient charging.

Smart Display

The integrated touchscreen display shows real-time insight into the GaN Charger’s performance. Switch between modes to view total wattage, individual port power output, total charging time, and

charging status—Eco or Turbo Boost. The display can also be flipped, ensuring it’s easy to read no matter how the charger is oriented in the socket.

Safe and Reliable GaN Performance

Built using Gallium Nitride (GaN) technology, this charger offers high efficiency and cooler operation in a smaller form factor. It features comprehensive protection systems against overcurrent, overvoltage, overheating, and short circuits. Combined with a fireproof PC shell, it provides durable, reliable performance every time you plug in.

Made for Life on the Go

With its replaceable EU, UK, and US plugs, it’s the ultimate travel companion. The compact design saves space in your bag while ensuring you can charge all your devices anywhere in the world. Whether at home, in the office, or on a business trip, the Verbatim Mini GaN Charger with Display keeps your devices powered up safely and efficiently.
