CyberPower BU650EULCD provides home and office users with a reliable battery backup and safeguards office PCs and other electronic devices from surges, spikes, brownouts and other power irregularities. The product adopts line-interactive topology with Automatic Voltage Regulation (AVR) function to offer stabilized AC power output.

The patented GreenPower UPS™ Bypass design helps UPS achieve ultra-low power consumption to reduce energy costs while lowering UPS operating temperature, which extends its battery lifespan. Configurable alarm allows users to switch the audible alarm on or off during battery mode to avoid unnecessary disturbances. Its desktop design allows users to place it easily on desks or other tight
