Power, Poise, and Comfort

The Overlord Neo succeeds the original Overlord with a COUGAR-inspired softer, alternative aesthetic that softens its commanding, larger-than-life presence with a subtle, feline elegance. The new leather-like fabric upholstery feels more organic to the touch and improves breathability, wear resistance, with the freedom to rock, recline, and swivel under its grandeur. The imposing silhouette of its predecessor has been subtly reshaped into a sleeker, more space-conscious profile, turning any room into your personal lounge. Relax in both elegance and ease whether you're gaming, watching a movie, or just living it up as the lord of your domain.

Expansive Size

Plenty for gaming, watching a show or movie, or just relaxing. Put a throw and some cushions on it, and it's a rest station fit for kings.

Body-Specific Support

The Overlord Neo is engineered to optimize support for specific body areas.

Refined Upholstery

The sides, back and base are upholstered in wear-resistant PVC leather, stitched in a classic diamond check pattern for a timeless look. Seating area is upholstered in breathable, leather-like fabric that feels supple and organic to the touch, uniting durability with premium appeal.

Specialized Padding

The mix of premium loose fill siliconized polyester fiber padding and high-density foam of the backrest tempers softness with just the right amount of give. High-density foam and pocket coil springs in the seat ensure firm but pliant cushioning.

Rock, Recline and Swivel

All-in-one trimotion base gives you a wealth of positioning options, by letting you rock, recline and swivel at your leisure. The base is SGS certified and supports a maximum load of 350lbs.
