Join the motorsport elite with T818 Ferrari 488 GT3 Simulator, a complete officially-licensed pack designed in collaboration with Ferrari. It brings together the T818 Direct Drive base, the Ferrari 488 GT3 wheel rim and the Raceline Pedals LTE pedal set, offering total performance and immersion. The result of more than 25 years of partnership between Thrustmaster and Ferrari, this simulator embodies the passion and excellence of Italian motorsport.

10 N·M, UNFILTERED

Discover the raw power of the T818 Direct Drive base, capable of delivering 10 N·m of constant torque without saturation for smooth, powerful, super-responsive Force Feedback. The effects of the game are reproduced without any filters — for a feel that's truly connected to the road, as close as possible to the sensations of real-world driving.

OPTIMIZED T818

This pack includes the new version of the T818 base, improved with a reinforced connector and an optimized motor assembly for enhanced reliability and durability. With the My Thrustmaster Panel software on PC, you can customize your experience: adjust the Force Feedback with 10 settings, add effects to suit your style, configure the behavior of the LEDs, and save your profiles.

FERRARI 488 GT3 REPLICA

A wheel rim designed for competition: an official life-size replica of the Ferrari 488 GT3 steering wheel, designed for performance and precision with a weight-optimized carbon central faceplate and a diameter of 12.2 inches / 31 cm. It features 11 buttons, a D-pad, 4 encoders and 4 LEDs for total control, along with Mag-Shift paddle shifters that guarantee clean and precise gear shifting.

RACELINE PEDALS LTE

The 2-pedal Raceline Pedals LTE pedal set offers reliable, durable precision thanks to its Hall Effect (H.E.A.R.T.) sensors and sturdy metal structure. Modular and customizable, you can adjust the pedals' pressure force using the 3 adjustment notches and the included springs, as well as the position and height of each pedal. Upgradable, it is compatible with Raceline LC Upgrade to switch to a 3-pedal version with Load Cell brake.

COMPATIBILITY

T818 Ferrari 488 GT3 Simulator is compatible with PC (Windows 10/11). It adapts to any setup: T818 and Raceline Pedals LTE can be used in a cockpit with the included screws, and T818 can also be used on a desk (thickness: 0.6 inches / 1.5 cm to 1.6 inches / 4.1 cm) thanks to the included Desk Mounting Kit. A Quick Release Adapter is included in the pack for backward compatibility with other Thrustmaster wheel rims.
