Personalise your set-up and add more players to the mix with an additional DualSense wireless controller.

DualSense™ wireless controller

Discover a deeper gaming experience¹ with the innovative new PS5™ controller.

Heighten Your Senses™

The DualSense wireless controller for PS5 offers immersive haptic feedback², dynamic adaptive triggers² and a built-in microphone, all integrated into an iconic design.

Haptic feedback

Feel physically responsive feedback to your in-game actions with dual actuators which replace traditional rumble motors. In your hands, these dynamic vibrations can simulate the feeling of everything from environments to the recoil of different weapons.

Adaptive triggers

Experience varying levels of force and tension as you interact with your in-game gear and environments. From pulling back an increasingly tight bowstring to hitting the brakes on a speeding car, feel physically connected to your on-screen actions.

Find your voice, share your passion

Built-in microphone and headset jack

Chat with friends online³ using the built-in microphone — or by connecting a headset to the 3.5-mm jack. Easily switch off voice capture at a moment's notice with the dedicated mute button.

Create button

Capture and broadcast your most epic gaming moments with the create button. Building on the success of the pioneering SHARE button, "create" offers players more ways to produce gaming content and broadcast their adventures live to the world.
