Moza Racing SGP Sequential Shifter

Model: RS059

Manufacturer: MOZA RACING

EAN: 6973137270544

Product Code: 1649655

R3,365

Experience ultimate racing immersion with our premium all-metal construction gear shifter, engineered with aerospace-grade aluminum and high-strength steel. Precision design delivers smooth and accurate shifts, replicating the feel of a real sequential gearbox. Our shifter features a versatile multi-functional handle, a non-contact Hall sensor for consistent performance, customizable RGB backlit buttons, and personalized adjustability for comfort. Upgrade with an easy-to-change shifter knob and enjoy seamless PC connectivity. Tested for durability to ensure reliable, high-quality performance race after race.

All Metal Construction

Crafted from aerospace-grade aluminum alloy and high-strength steel using CNC high-gloss cutting technology, our shifter boasts a sleek metallic texture and unmatched durability for a truly premium feel.

Immersive Realism

The precision in structural design guarantees accurate shifting, delivering smooth gear shifts with swift rebounds for an immersive racing experience that mirrors the superior feel of real racing cars' sequential gearboxes.

Versatile Multi-Functional Handle

Equipped with a multi-functional handle, our shifter allows quick shifts to neutral or reverse, with customizable options for other commonly used functions, providing ultimate flexibility.

Stable Non-Contact Hall Sensor

The non-contact Hall sensor technology ensures high stability without wear, guaranteeing consistent and reliable shifting time after time.

Dynamic RGB Backlit

Mechanical Buttons

Elevate your gaming setup with two RGB backlit mechanical buttons, offering eight color options and practical customization for commonly used functions.

Personalized Adjustability

Tailor your experience with adjustable shifting resistance, and enjoy further customization with the handle's height, adjustable within a 64mm range for personalized comfort.

Customizable Shifter Knob

The shifter knob features an automotive industry standard M12 thread allowing easy replacement with most aftermarket shifter heads, enabling a personalized touch to your setup.

Seamless Connectivity

Easily connect to your PC via USB or compatible MOZA bases, providing a direct and hassle-free connection for optimal performance.

Fully Customizable

Customize your MOZA SGP shifter through the MOZA Pit House software. Personalize button colors and brightness, sync shifter paddle and sequential setting effortlessly. The flexible reverse mounting feature allows the SGP to be easily fitted to your racing rig.

Durable Performance

Rigorously tested through millions of cycles our shifter's mechanism passed all durability tests without any signs of structural or electronic issues. Enjoy a consistently high-quality experience with every use.
