ROG Crosshair 2006

The ROG Crosshair 2006 celebrates the 20th anniversary of the very first ROG motherboard with a retro-inspired copper color design and signature OLED animation. This flagship platform also offers advanced power delivery and cutting-edge memory technologies, blending heritage with modern performance.

Personalization

The ROG Crosshair 2006 includes LiveDash, a built-in 2-inch OLED panel that shows useful information and features customizable graphics. During the power-on, self-test (POST) phase, the

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
