ICY BOX Heart RAID 3705

Model: IB-RD3705-CU3

Manufacturer: ICY BOX

EAN: 4250078175315

Product Code: 1651334

R4,971

Massive 5-bay storage capacity

No more handling multiple setups. Spend your time with what you love, not with organizing data. Heart RAID 3705 gives you space for up to 5 SATA drives in one single system. It supports both 2.5" and 3.5" HDDs and SSDs, so you can mix and match different drives depending on your needs. With support for high-capacity drives up to 30 TB each, you get enormous room for backups, media libraries, and long-term archives. It’s your practical solution and end juggling multiple external drives.

Multiple RAID modes

Life changes, so do your necessities: including RAID 0, RAID 1, RAID 3, RAID 5, RAID 10, SINGLE, and LARGE, Heart RAID 3705 gives you full freedom to shape your storage the way you want. You can set it up for higher speed, better data protection, or simple individual drive use. This flexibility makes it

suitable for everything from creative projects to business backups. Instead of being locked into one setup, you can adjust the system as your needs change. One device adapts to many different workflows.

Easy RAID control with a switch

Good products are not only working. They are self-explanatory. Heart RAID 3705 understands that, which is why changing modes is simple and direct thanks to the built-in hardware switch. No need for complicated software or long setup steps. Just select the mode you want, reset, and the system is ready to go. It’s a straightforward approach that saves time and avoids unnecessary complexity.

Keep it cool

A built-in fan keeps the system running cool, even when all 5 drives are working at the same time. This helps maintain stable performance during long transfers or heavy workloads. Good airflow also supports the health of your drives over time. You can work with large amounts of data without worrying about overheating.

Fast USB connectivity for everyday

Heart RAID 3705 connects via USB Type-C® and Type-A, making it easy to use with both modern and dated computers. File transfers is smooth and responsive for everyday tasks like backups, editing, and data management. One single cable keeps your setup clean and simple. It’s a practical balance of speed and convenience for daily use.

Wide system compatibility

You are not like everyone else, and Heart RAID 3705 respects that. That is why it works with Windows®, macOS®, and Linux® systems, matching with your individual taste. No special configuration is needed to get started. It’s a flexible solution for home, office, or mixed-system setups.
