Conceptronic THYIA03B Turbofan Gaming Laptop Cooling Pad with USB Hub, RGB, Sealed Foam, Mobile Holder

Model: THYIA03B

Manufacturer: CONCEPTRONIC

EAN: 4015867244357

Product Code: 1651616

R1,715

The THYIA03B Turbofan Gaming Laptop Cooling Pad with USB Hub is designed for high-performance cooling and enhanced usability, supporting laptops up to 19 inches. A powerful turbo fan with adjustable speed ensures efficient heat dissipation, while the sealed foam design minimizes airflow leakage for improved cooling efficiency.

Five adjustable height levels provide ergonomic comfort for extended use, and the integrated 4-port USB hub expands connectivity for additional devices. Customizable RGB lighting creates an immersive gaming atmosphere, complemented by an LCD screen that displays fan speed and

lighting modes in real time.

Constructed from durable aluminum and plastic for stability and effective heat transfer, the cooling pad also features a built-in mobile phone holder for added convenience. The included power adapter ensures reliable and consistent operation.

Combining powerful cooling with smart, user-focused design, this cooling pad is an ideal solution for gamers and professionals seeking performance, comfort, and versatility.
