LogiLink POE005 PoE adapter Gigabit Ethernet

Model: POE005

Manufacturer: LOGILINK

EAN: 4052792041163

Product Code: 1652680

R1,006

Our Power over Ethernet (PoE) solutions supply your devices with power over the network. The PoE splitter enables you to supply even those devices, which are not PoE enabled, with power over a network cable. With up to 24 Watts all your devices like router, access points, and so on will have the suitable power. Save time, money and material of an additional laying of cables.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
