Product information "Wireless 28-button keypad with BT 5.0, scissor mechanism, space grey" from LogiLink

Make your data entry easier with this multifunctional 28-button keypad. With BT 5.0, it offers a stable connection of up to 10 metres. The scissor mechanism and low-noise keycaps ensure comfortable and quiet typing. With NumLock, ESC, Delete and a calculator key, it is perfect for accounting, spreadsheets in Excel or Google Sheets and general data entry. The integrated 140 mAh battery offers a long operating time and can be conveniently charged via USB-C.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
