

LogiLink WZ0080 network cable tester RJ-45 & SFP tester Black

Model: WZ0080

Manufacturer: LOGILINK

EAN: 4052792078961

Product Code: 1652873

R896

Portable patch cord tester. It tests all pairs and detects faults such as open, shorted, crossed or reversed pairs. The included remote unit can be used to test a cable after installation. The PoE tester indicates if and which pairs (1-2/3-6 or 4-5/7-8) have PoE power. The built-in LED light and magnet for attaching the unit are also practical.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
