LogiLink Cat.6A Patch Panel 24-Port UTP, 90° LSA termination

Model: NP0133

Manufacturer: LOGILINK

EAN: 4052792076981

Product Code: 1652978

R1,333

Compact distribution panel for installation in 19" racks. Ideally suited for the transmission of digital and analog voice, video and data signals of class E (250 MHz) or EA (500 MHz). In combination with the appropriate data cables, this patch panel is suitable for almost all applications up to 10 Gigabit Ethernet as well as Power over Ethernet.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
