

LogiLink NK4052 patch panel

Model: NK4052

Manufacturer: LOGILINK

EAN: 4052792051650

Product Code: 1652981

R786

LogiLink's shielded keystone patch panels are specifically designed for modular Cat.6A 10GE cabling. The metal housing with additional shielding plate can be placed on any table or wall surface. All Keystone modules with a narrow design, for example LogiLink's Cat.6A Keystone Jack NK4000, are suitable for installation. The strain relief on the back of the device ensures high stability. Together with LogiLink's DIN rail brackets MP0049, the device can also be mounted on any standard 35 mm DIN rail.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
