R969

Product information "Crimp tool for CAT5/6/6A/7 & PASS THROUGH connectors" from LogiLink Professional

This professional crimping tool from LogiLink is especially suitable for shielded CAT.6A (CAT.7) "pass-through" connectors with dovetail clip, but also for conventional CAT5, CAT6, CAT6A and RJ11/12 modular connectors. The handy yet very rugged tool is easy to hold and allows for fast and precise work: Cutting, stripping and crimping

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
