Jump-start a flat battery in seconds with this powerful 10.000 mAh portable car jump starter. It can jump-start most 12 V vehicles (petrol engines up to 6 litres and diesel engines up to 3 litres) multiple times on a single charge. But not only that, because the PA0266 also has an ultra-bright LED torch with SOS flash light and two USB-A outputs. So your car and mobile devices are always ready to go!
