Model: UA0438

Manufacturer: LOGILINK

EAN: 4052792075076

Product Code: 1653436

R1,160

Product information "Magnetic USB 3.2 Gen2 SSD enclosure, 100 W PD, MagSafe compatible, space grey" from LogiLink

This external SSD enclosure offers a practical and fast storage solution for your smartphone. It is magnetically attached (MagSafe compatible) and is therefore easy to transport. It is compatible with the latest USB 3.2 Gen 2 standard and enables data transfer rates of up to 10 Gbps. It is designed to accommodate 2230 and 2242 SSDs (both M Key and B+M Key) and supports a maximum SSD capacity of 2TB. The aluminium construction ensures efficient heat dissipation and keeps your drive cool during operation. It comes with a 20 cm USB-C to USB-C cable and is finished in an elegant space grey.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
