Product information "Manually adjustable sit-stand desk, black" from LogiLink

Sit or stand as you wish while working. With the EO0027 from LogiLink you can quickly and easily transform your desk into an ergonomic standing workstation. Just change the height and prevent a lot of health problems caused by long sitting. The advanced frame design reduces set-up time and provides long-term stability for confident daily use. The detachable handle can be conveniently stored under the desk when not in use.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
