Model: TAA6219BK/00

Manufacturer: PHILIPS

EAN: 4895229144569

Product Code: 1653922

R1,333

Powerfoyle™ by Exeger. More light, more power

Sunlight to electric light, these headphones recharge whenever they’re exposed to light! Powerfoyle™ solar-cell material in the headband harvests energy from the sun to keep the battery powered up—and you’ll even get a charge from electric light. A fully charged battery provides up to 80 hours of play time, so you can keep going even in low light.

Cool and comfy on-ear fit for active lifestyles

Run, walk, roller skate! The comfy headband won’t slip when you move and the soft, breathable ear-cup cushions are filled with cooling gel. The ear-cup cushion sleeves can be removed for easy cleaning, so you’ll always be able to get them feeling fresh again.

Great sound even at low volume with Dynamic Bass

You’ll enjoy rich sound from the 40 mm drivers, and good passive noise isolation from the over-ear fit. If you love a good bassline, activate Dynamic Bass via the Philips Headphones app and you can enjoy the full power of your favorite tunes even if you’re listening quietly.

Sweat-resistant coating and IP55 dust/water protection

Super-sweaty workouts, hikes along dusty trails, and runs in the rain aren’t a problem for these solar-powered headphones. A dedicated sweat-resistant coating protects the internal circuitry, and an IP55 rating means they can handle moisture and dust.

Solar charging, recycled plastic, responsible packaging

Solar charging reduces the need to connect to the power grid, and we’ve left out the USB-C cable to help reduce e-waste. These headphones also use PCR material made from old bottles and other plastic waste, and our packaging is plastic-free.

Solid Bluetooth multipoint connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices (iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Clear calls. They’ll hear what you’re saying

Your voice will come through clearly when you’re on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietens some of the background noise from the world

around you.

Philips Headphones app. Your healthy lifestyle companion

Our handy companion app lets you see how much power you’re generating from sunlight and check battery levels. You can also use the app to activate binaural beats designed to aid relaxation or focus: you can listen to the beats on their own, mixed with your music, or as background sound in a soundscape.

Warm, detailed, natural. Philips sound signature

Music to podcasts, these wireless headphones make the most of the sounds you love! You’ll enjoy warm, detailed sound with rich bass from the large drivers, which are tuned to the Philips sound signature.

80 hours play time from a full charge

Powerful 40 mm neodymium drivers

Detachable, washable ear-cup cushions with cooling gel
