The ROG Strix OLED XG32UQWMS is a 32-inch UHD TrueBlack Glossy™ Tandem WOLED gaming monitor that offers sharp visuals and features tandem WOLED technology that offers 15% higher peak brightness, 25% wider color volume, and a 60% longer lifespan versus previous-generation WOLED monitors. Featuring the Neo Proximity Sensor within the ASUS OLED Care Pro suite, the monitor is able to detect when the user is away and automatically transition to a black screen to guard against panel burn-in. Thanks to a compact stand, the XG32UQWMS takes up minimal desktop space. Plus, it offers users an extensive array of connectivity options, including DisplayPort™ 1.4 (DSC), HDMI® 2.1, and USB hub.
