

**Klevv 16GB  
5600MHz CL30  
DDR5 GAMING  
RAM MODULE  
30-36-36-88  
1.25V FIT V**

Model: KD5AGU880-56K300Q

Manufacturer: KLEVV

EAN: 4895194968375

Product Code: 1658056

**R6,357**

## Supercharged for Content Creators

Experience seamless multitasking and graphics rendering with the FIT V, equipped with high frequencies of up to 6400MT/s. Enjoy low latencies for faster response times and smoother and stable system performance that can easily keep up with your demanding workload.

## Ultra-low Clearance

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The FIT V boasts a sleek and minimalist design with excellent heat dissipation at only 33.2 mm in height. The low-profile aluminum heat spreader ensures extensive compatibility for diversified configurations, providing users with more flexibility when selecting components for their PC build.

## **Work with AMD**

### **Unleash Optimized Platform Performance**

At KLEVV, we understand that choosing the right memory can sometimes be challenging. That's why we've designed our products for broad platform compatibility—making it easier for users to find the ideal match for their system. FIT V is optimized for AMD platforms, while maintaining compatibility with legacy Intel platforms. Check the table to ensure optimal compatibility with your respective platform.

## **Intel XMP 3.0 & AMD EXPO™ Ready**

Maximize performance with pre-programmed FIT V settings for optimized timings, voltages, and speeds through both Intel® XMP 3.0 and AMD EXPO™ on-board profiles.

To attain the specified memory speed with XMP 3.0 or EXPO profile, please make sure the specifications of your CPU and motherboard support the corresponding speeds in advance.

## **Rigorous Testing and Quality Standards**

KLEVV is a premium memory brand known for our expertise in delivering high-quality DRAM products, where our memory modules are crafted with exceptional attention to detail and the finest components, setting the standard for reliability and quality.

## **QVL Tested & Approved**

The FIT V has undergone thorough testing for the world's renowned leading motherboard manufacturers' Qualified Vendors List. Our memory is designed to deliver impressive performance and compatibility with all major motherboards on the market.
