Connect. Collaborate. Unleash your productivity.

The Verbatim CDS-17 is a professional docking station with 17 ports.

The versatile hub simplifies device management, accommodates various peripherals, and enhances productivity, making it an ideal solution for users seeking a comprehensive and efficient docking experience for their laptops or workstations, particularly in graphics-intensive or data-intensive tasks.

The CDS-17 possesses one USB-C 3.2 Gen2 and four USB-A ports, ideal for devices like mouse, keyboard, etc. The RJ45 port ensures stable network connectivity, while the SD/MicroSD slots cater to versatile memory card needs.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
