

# **APC AP7820B power distribution unit (PDU) 8 AC outlet(s) 0U/1U Black**

Model: AP7820B

Manufacturer: APC

EAN: 731304331506

Product Code: 1658979

---

## **R14,595**

---

### **Marketing Features**

#### **Local Current Monitoring Display**

The aggregate current draw per power distribution unit is displayed on the unit via a digital display. The local digital display helps installers avoid overloaded circuits by providing a visible warning when the current draw is close to the maximum amperage draw of the strip.

Local and web-based monitoring

Status available to customers both in the data center and remotely

## Alarm Thresholds

Define alarm thresholds in order to avoid overloaded circuits. Network and visual alarms inform the user of possible problems.

## Load indicator LED

Indicates overload and warning conditions based on the user-defined alarm thresholds. Alerts users of potential overloaded circuits.

## Wide range of input and output connections

Product family includes a variety of input and output connections to distribute 120V, 208V, or 230V power to multiple outlets. Having a variety of inputs and outputs allow users to adapt to varying power requirements. APC offers units that bring up to 14.4kW using a single branch whip.

### Agility

## Wide range of input and output connections

Product family includes a variety of input and output connections to distribute 120V, 208V, or 230V power to multiple outlets. Having a variety of inputs and outputs allow users to adapt to varying power requirements. APC offers units that bring up to 14.4kW using a single branch whip.

## Single input power source

Supply power from one branch whip to multiple pieces of equipment, conveniently powering rack-mount equipment. Saves time and money during installation by using one branch whip and standard connections.

## Rack-Mountable

Includes horizontal, vertical, and toolless-mount varieties. Puts power where it is needed most - in the racks near the equipment.
