

ICY BOX IB-WL101 (100W power 30m wireless range)

Model: IB-WL101

Manufacturer: ICY BOX

EAN: 4250078174967

Product Code: 1661332

R1,789

Wireless screen mirroring made simple

Freedom from the cable jungle

IB-WL101 allows you to mirror your notebook or smart device screen wirelessly to a larger display. No HDMI® cable stretched across the room, no complicated setup. Just connect the transmitter to your device and the receiver to your monitor or TV. It's ideal for movies, presentations, or sharing content in meetings.

USB-C® Transmitter with Power Delivery

Two jobs, one connection

The transmitter features a USB Type-C® host connection and an additional USB Type-C® PD-IN port supporting up to 100 W power input. This allows you to power your notebook while streaming

content at the same time. You don't have to worry about battery levels during long meetings or movie sessions. One device handles both signal transmission and charging.

Stable 1080p transmission up to 30 Meters

Room to roam

No more "Will the connection hold?!" With a maximum resolution of 1080p and a transmission distance of up to 30 meters, IB-WL101 gives you freedom of movement. You're not limited to sitting right next to your screen. This makes it practical for conference rooms, classrooms, or living rooms.

Clean setup - no cable clutter

Order, restored

By removing the need for long HDMI® cables, IB-WL101 keeps your space organized. It reduces tripping hazards and avoids messy installations across desks or meeting tables. This makes it especially useful in professional environments. You get a practical solution that looks as tidy as it performs.

Flexible receiver connection

Plays well with your setup

Be ready for virtually any modern monitor and TV. The receiver connects to your display via HDMI® and also includes a USB-A port for power supply. Power can be provided through the display's USB port or an external power source. The setup remains clean and straightforward.

Broad compatibility

At home on any desk

IB-WL101 supports Windows® and macOS® systems. USB Type-C® devices must support

DisplayPort™ Alt Mode or Thunderbolt™ 3/4 for video output. Once connected, the system mirrors
