Charging for Every Journey

The Charge 'n' Drive "Ice Cooling" Magnetic Wireless Car Charger delivers up to 15W* of power for Qi-compatible Android devices and 7.5W for iPhones, keeping your phone charged wherever you go. Experience reliable, fast wireless charging that ensures you stay connected on the road.

It features an attractive RGB backlight, which not only makes nighttime charging effortless but also adds a stylish and vibrant glow to your dashboard, enhancing the overall driving experience.

Stay Cool, Charge Efficiently

With its advanced ice-cooling system, this charger utilises a smart cooling fan and semiconductor chilling plate to prevent overheating. Whether you're travelling in a hot car or embarking on long-distance journeys, this technology keeps your device cool while charging efficiently at maximum speed, uninterrupted.

Flexible Mounting Options

Mount your phone wherever it's most convenient. The charger comes with a ventilation holder and a suction cup holder, offering you three mounting options—ventilation, dashboard, or windscreen. Its 360° rotatable design allows you to find the perfect viewing angle for navigation, calls, or music control with ease.
