Unique Dual Retractable Cables

Say goodbye to messy wires and forgotten cords. The Charge 'n' Travel 70W GaN III Adapter comes equipped with two integrated retractable USB-C cables, built directly into the device. This innovative feature keeps everything compact and tangle-free, while still offering powerful charging on-the-go. Whether you're hopping between hotel rooms or working in cafes, your essential cables are always within reach – no more rummaging through bags. Combined with universal plug support, this adapter is your new travel essential.

Efficient Charging for All Devices

With GaN III technology, the Charge 'n' Travel Adapter maximizes performance while minimizing size. GaN (Gallium Nitride) allows for better energy efficiency, less heat generation, and faster charging – making it the ideal solution for today's high-performance devices. Capable of delivering up to 70W total output, it easily powers everything from laptops and tablets to smartphones and Bluetooth speakers. The intelligent design supports up to six simultaneous connections without compromising on speed or safety.

Safe, Stylish, and Built to Travel

Wrapped in a sleek, black 3D diamond casing, this adapter doesn't just perform – it looks the part too. Made from high-quality fireproof polycarbonate and fully certified for safety, it includes essential protections such as a BS1362 compliant 10A fuse and surge protection. The compact design fits neatly into any carry-on, and the included travel pouch adds an extra layer of convenience. Built to endure the demands of international travel, this adapter is as rugged as it is refined.
