Mova K10 Pro Cordless Upright Vacuum with Mop

See for yourself that cleaning can be easy and enjoyable. The Mova K10 Pro cordless upright vacuum cleaner not only lets you vacuum your floors but also mop them. This allows you to quickly and effectively remove even the most stubborn dirt! The device stands out with 15,000 Pa of suction power and a runtime of up to 30 minutes; it also intelligently detects dirt and features a self-cleaning function. It’s also very convenient to use and has a built-in LED screen that provides you with all the most important cleaning information.

A reliable ally in the fight against dirt

With the Mova K10 Pro, you’ll get rid of dirt in every nook and cranny in the blink of an eye. The vacuum cleaner is equipped with a motor that runs at speeds of up to 120,000 rpm, delivering a

maximum suction power of 15,000 Pa. As a result, it quickly and thoroughly removes most debris, such as dust, pet hair, and crumbs. What’s more, the device intelligently detects the level of dirt in its surroundings and automatically adjusts its performance accordingly. The result is fantastic cleaning results with optimal energy efficiency!

Fast and Thorough Floor Cleaning

With this vacuum cleaner, you can not only vacuum but also mop your floors—the K10 Pro model quickly and effectively tackles even stubborn stains. The device is equipped with two water tanks—one for clean water (890 ml) and one for dirty water (600 ml). This ensures that dirt won’t end up back on your freshly cleaned tiles or laminate floors! But the possibilities don’t end there. The Mova K10 Pro offers a clean water electrolysis feature to produce powerful disinfectants in real time. As a result, it reduces up to 99.99% of harmful bacteria and viruses. So you can better protect the health of yourself and your loved ones!

Designed with your convenience in mind

The Mova K10 Pro is a successful combination of powerful capabilities and a lightweight, ergonomic design. The vacuum weighs only 3.8 kg—you can easily carry it upstairs or lift it to vacuum the ceiling. It’s also equipped with a special drive system that automatically propels it forward, making it much easier to maneuver. In addition, the comfortable handle and swivel design make it easy to guide the device and ensure unmatched comfort during use. All of this will let you clean your home effortlessly!

Up to 30 minutes of runtime

You no longer have to worry that a vacuum cleaner running out of power too quickly will cause an unwanted break in your cleaning. The K10 Pro model is equipped with a battery pack with a capacity of 7 × 2400 mAh, which can provide up to 30 minutes of runtime (in Auto mode). That’s long enough to thoroughly clean floors with a total area of up to 200 m^2! This makes the device ideal for both small and slightly larger apartments or homes.

A Brush for Special Tasks

The vacuum cleaner is equipped with a specially designed brush that allows for thorough cleaning even along edges—for example, along baseboards and in narrow nooks and crannies. It also features two scrapers—a front (hard) one and a rear (rubber) one. The first effectively removes pet hair, human hair, and other types of debris, while the second removes water residue, ensuring that the floors in your home will be spotlessly clean.

Smart Cleaning

Enjoy convenient access to information. The vacuum cleaner’s built-in smart LED screen lets you quickly check the selected suction mode, battery status, how full the water tanks are, the current level of debris in the environment, and more. All at a glance! But that’s not all—the Mova K10 Pro supports voice prompts, so it can keep you updated on cleaning progress in real time.
