Hair Dryer MOVA Shine 20 Silver

Model: AMSH20 SLV

Manufacturer: MOVA

EAN: 6977728944463

Product Code: 1663983

R4,892

MOVA Shine 20 Hair Dryer (Silver)

Create a ritual that will help you care for your hair and scalp. The MOVA Shine 20 hair dryer, designed with every family member in mind, features an advanced brushless motor, and with an airflow of up to 65 m/s, you can dry your hair even faster while minimizing heat exposure. The intelligent temperature control system with TOF technology automatically adjusts the heat based on the distance from your head, protecting the delicate structure of your hair. Ionization restores smoothness and shine, and the quiet 58 dB operation means you can use the device even late at night without disturbing the peace at home.

Fast drying without overheating

Save time before heading out. An airflow speed of 65 m/s and a powerful brushless motor shorten the drying process and reduce heat stress on your hair. The MOVA Shine 20 hair dryer dries short hair in about 40 seconds, medium-length hair in about 2 minutes, and long hair in about 4 minutes.

You can choose from 3 airflow speed settings and 4 temperature levels to tailor the device’s performance to the thickness, length, and needs of your hair.

Smart Hair Protection

The MOVA Shine 20 hair dryer uses 2 advanced sensors that work together to protect your hair and scalp. The TOF (Time of Flight) sensor monitors the distance between the device and your head and automatically adjusts the airflow strength and temperature to maintain an optimal temperature of 55°C, preventing your hair from drying out and your scalp from becoming irritated. At the same time, the NTC sensor continuously measures the air temperature at the outlet up to 1,000 times per second, immediately responding to any fluctuations and protecting against overheating and heat damage. This allows you to use the device without worrying about the condition of your hair, protect the scalp’s hydrolipid barrier, and retain moisture within the hair shaft—which is crucial for caring for high-porosity hair.

Ionization for Smoothness

The ionization technology in the MOVA Shine 20 reduces static and smooths the hair’s surface, helping strands retain their lightness and elasticity so you don’t have to worry about frizz, even on humid days. The device emits as many as 300 million negative and positive ions, which help lock moisture inside the hair, reduce static, and eliminate unpleasant odors, leaving your hair smooth, soft, and full of shine.

Comfort Thanks to AeroBlossom

AeroBlossom technology breaks up large air vortices into smaller ones, ensuring an even airflow and a stable, comfortable temperature during drying. This prevents strands from overheating in one spot, and the airflow is gentle, comfortable, and tailored for everyday care.

Style It Your Way

The set includes a round styling brush, a concentrator nozzle, and a special nozzle that let you create curls, add volume at the roots, or achieve a smooth finish. Four operating modes and automatic temperature control let you tailor the dryer’s performance to your hair’s needs. With the

MOVA Shine 20, you’ll achieve salon-quality results right at home!

A Choice for the Whole Family

Thanks to its smart nozzle recognition and automatic mode adjustment, the MOVA Shine 20 is perfect for caring for the hair of every family member—from children to adults. The set includes a concentrator nozzle that lets you dry short hair in 40 seconds while minimizing frizz. The round brush helps create volume, soft waves, or light curls, giving your hair shine and lightness without frizz. A special nozzle for children generates a gentle airflow at a temperature of 40–50°C that is quiet and safe, making daily hair drying for little ones comfortable and enjoyable.

Quiet operation and lightweight design

The MOVA Shine 20 weighs only 430 g and operates at 58 dB, allowing for comfortable drying without straining your wrist or creating noise. Take care of your hair even while watching your favorite TV show and discover that hair care can be a natural, enjoyable part of your day.

Included:

- Hair dryer
- Round styling brush
- Concentrator nozzle
- Nozzle
- User manual
