MOVA S7 Stick Vacuum

MOVA S7 is an advanced cordless upright vacuum cleaner that combines high suction power of 170 AW with intelligent adjustment of operation to the level of dirt. The device offers up to 80 minutes of operation on a single charge and an advanced filtration system with an efficiency of up to 99.9%. With a clear OLED screen, green brush backlighting, and simple maintenance, the device ensures fast, thorough, and hygienic cleaning of your entire home.

High suction power

The motor generates 170 AW (30 kPa) of suction power, effectively removing both fine dust and larger debris from hard floors and carpets. Consistent and stable performance allows for efficient cleaning of large areas without having to go over the same area multiple times.

Intelligent power adjustment thanks to dirt detection

The Smart Dirt Detection system automatically recognizes the amount and size of debris, adjusting the suction level in real time. With heavier dirt, the power increases, and with lighter dirt, it decreases, allowing you to maintain optimal cleaning efficiency while extending battery life.

Long runtime of up to 80 minutes

The vacuum cleaner provides up to 80 minutes of continuous operation on a single charge, allowing you to easily clean your entire apartment or single-family home. In addition, the replaceable battery increases flexibility of use.

Advanced filtration for clean air

The MOVA S7 uses a five-layer filtration system with a HEPA H13 filter and 12-cone cyclonic separation, which effectively captures particles as small as 0.3 µm. The filtration efficiency reaches 99.9%, which translates into cleaner exhaust air and greater comfort of use, especially for allergy sufferers.

Clear OLED screen and full control

The built-in OLED screen displays the battery level and current operating mode in real time. The device starts up in automatic mode by default, and the user can choose from available options such as Auto, Low, Medium, and High with a single button.

Green brush lighting

The vacuum cleaner brush is equipped with green lighting, which effectively highlights fine dust and dirt that is not visible at first glance. This makes cleaning more thorough, especially along baseboards, under furniture, and in dark corners.

Hygienic emptying and easy maintenance

The container emptying system with a scraper ring allows you to remove dust in one go, without coming into contact with dirt. In addition, the filters and brushes can be removed without tools and washed under running water, which simplifies maintenance of the device.

Convenient storage and charging

The included wall mount allows you to charge the vacuum cleaner and store accessories in one place. This solution keeps things tidy and ensures that all the necessary items are always at hand.

Included in the set

- Vacuum cleaner body
- Illuminated brush for all surfaces
- Crevice nozzle
- Wide combination nozzle
- Mini electric brush
- Extension tube
- 2-in-1 wall mount for charging and storage

Manufacturer	MOVA
Model	MOVA S7
Suction power	30 kPa / 170 AW
Rated power	535 W
Battery capacity	7 × 2500 mAh
Operating time	Up to approx. 80 min
Filtration efficiency	99.9% at 0.3 µm
Dust container capacity	0.5 l
Display	OLED
Green backlight	Yes
Automatic suction adjustment	Yes

Gross weight: 6740, Net weight: 3800, Box length: 74,00, Box width: 24,50, Box height: 32,00,
