MOVA S1 Stick Vacuum

The MOVA S1 is a cordless upright vacuum cleaner designed as an efficient and convenient solution for everyday cleaning throughout the home. The device offers suction power of up to 130 AW (28,000 Pa), a runtime of up to 60 minutes, and an advanced filtration system with 12-cyclone separation of contaminants. With its thoughtful design, smart LED display, and wide range of accessories, the S1 ensures effective cleaning of various surfaces without unnecessary effort.

Powerful and stable suction without performance drops

At the heart of the MOVA S1 is an independent 350 W motor that generates a suction power of 130 AW (28,000 Pa). Such high power allows you to effectively remove dust, sand, crumbs, and pet hair from hard floors and carpets. Thanks to effective separation of contaminants, the airflow remains stable, which translates into consistent cleaning performance from start to finish.

Advanced filtration

The vacuum cleaner is equipped with a five-layer filtration system, an important element of which is 12-cyclone separation of contaminants. The air vortex effectively separates larger particles, hair, and dust clumps before they reach the filters, reducing clogging. This design not only helps maintain high suction power, but also ensures cleaner exhaust air and less frequent maintenance.

Long operating time

The 7 × 2200 mAh battery provides up to 60 minutes of uninterrupted operation, allowing you to easily clean a larger apartment or single-family home. Power is supplied in a stable manner, so the vacuum cleaner maintains good performance even during longer cleaning sessions. The replaceable battery makes charging easier and increases flexibility of use.

Intuitive operation with a smart LED display

The modern LED display gives you full control over the device's operation. The user can see the battery level and current operating mode in real time. The vacuum cleaner also allows you to quickly switch between three power levels (Min, Mid, and Max), allowing you to adjust the cleaning intensity to the type of surface and degree of soiling.

Brush with lighting to prevent hair and pet hair tangling

The V-shaped roller brush with integrated comb teeth effectively reduces hair and pet hair tangling. The bristles thoroughly penetrate the structure of carpets, pulling out dirt from deeper layers, while ensuring smooth operation without the need for frequent cleaning of the roller. This solution will be particularly appreciated by pet owners. What's more, the brush is equipped with LED lighting that reveals dust and small debris in dark corners, under furniture, and along baseboards. This makes cleaning more thorough, ensuring that no debris goes unnoticed.

Hygienic emptying and easy maintenance

The 0.5-liter dust container can be emptied with a single button, without coming into contact with dirt. In addition, the filter, container, and brush can be easily removed and washed under running water, making it easy to keep the vacuum cleaner clean and ensuring freshness during long-term use.

Accessories for various tasks

The MOVA S1 vacuum cleaner is designed as a universal tool for cleaning the entire house. Thanks to the included interchangeable attachments, such as a crevice tool and a multi-purpose brush, it is suitable for cleaning floors, upholstered furniture, countertops, window crevices, and hard-to-reach spaces. It is a single device that adapts to many everyday cleaning scenarios.

Included

- MOVA S1 vacuum cleaner
- Extension tube
- Brush with LED lighting
- Wide multifunctional nozzle
- Crevice brush
- Wall mount

Manufacturer	MOVA
Model	MOVA S1
Type	Cordless upright vacuum cleaner
Suction power	Approx. 130 AW / 28,000 Pa
Motor power	350 W
Operating time	Up to 60 min
Battery	7 × 2200 mAh
Dust container capacity	0.5 l
Filtration system	5-layer + 12-cone cyclonic separation
Operating modes	3 (Min, Mid, Max)
Display	LED
Main brush	With drive and LED lighting

Gross weight: 4670, Net weight: 2670, Box length: 74,50, Box width: 29,50, Box height: 16,50,
