

MOVA S70 Ultra Roller RVC (white)

Model: R5770A

Manufacturer: MOVA

EAN: 6978794732145

Product Code: 1664006

R16,267

MOVA S70 Ultra Roller Robot Vacuum (White)

The MOVA S70 Ultra Roller is a cleaning robot designed for maximum convenience and ultimate effectiveness. It combines 32,000 Pa of suction power with the advanced HydroForce™ mopping system, AutoShield™ smart carpet protection, and MaxiReach™ technology for thorough edge cleaning. All of this is supported by a fully automatic All-in-One station, which largely takes over the task of maintaining the device.

Perfectly clean floors

The HydroForce™ Mopping system completely changes the approach to mopping. The 27 cm-long mop roller is continuously rinsed with fresh water through 12 spray nozzles, and the used water is immediately sucked into a separate tank. With a suction power of 4,100 Pa, the robot effectively removes dried-on stains, greasy marks, and everyday dirt without smearing them across the floor.

Maximum suction power – no more dust in crevices

Effective vacuuming is powered by the TurboForce™ 9 motor, which generates a suction power of up to 32,000 Pa, effortlessly removing both fine dust and larger debris, hair, or cat litter from hard-to-reach places. Four power levels allow you to adjust the performance to the type of floor, ensuring thorough cleaning while maintaining a low noise level.

AutoShield™ smart protection

AutoShield™ technology eliminates the problem of damp carpets during mopping. The robot automatically detects textile surfaces, raises the roller by 12 mm, and activates a shield that prevents moisture from coming into contact with the fibers. This allows you to simultaneously mop hard floors and vacuum carpets—without the risk of water marks, musty odors, or damage to the carpet's structure.

Precision along walls and in corners

The MaxiReach™ Tech system was designed for areas that are usually missed. The automatically extending roller and side brush reach edges, baseboards, and corners. Active roller pressure and a fresh water supply effectively remove dirt along walls and around furniture, ensuring a deep clean of hard-to-reach areas.

Effortlessly navigates thresholds

Thanks to StepPro™ Tech, the MOVA S70 Ultra Roller robot easily handles obstacles in the home. An improved wheel design and stable drive system allow it to navigate thresholds and uneven surfaces up to a total of 4 cm (first threshold 3 cm + second threshold 1 cm). The device moves smoothly between rooms, around furniture, and over minor floor unevenness without requiring manual assistance.

Precise navigation even under low furniture

The CovertSense™ Navigation system ensures accurate mapping and intelligent cleaning route planning. The slim design, just 90 mm high, allows the robot to fit under low cabinets, sofas, or beds.

Additional LED lighting and a triple set of sensors ensure reliable obstacle detection and effective cleaning even in dimly lit areas.

Fully automated - forget about operating the robot

The All-in-One Station handles routine maintenance of the device. It automatically empties the dust bin, refills the cleaning solution, washes the roller with hot water (up to 100°C), and then dries it with hot air at 70°C. The 5-liter water tank allows you to clean your entire home without frequent refills, making the MOVA S70 Ultra Roller the ideal solution for families and pet owners.

Included:

- Cleaning robot
- Docking station
- Docking station ramp extension plate
- Automatic cleaning solution dispenser (installed)
- Dust bag x2 (one installed)
- Roller (installed)
- Side brush (installed)
- Cleaning plate
- Main brush (installed)
- Dust bin (installed)
- Dust bin filter (installed)
- Scale inhibitor (installed)
- User manual

Manufacturer	MOVA
Model	S70 Ultra Roller
Color	White
Navigation system	CovertSense™ Navigation
Obstacle avoidance	Dual laser line + RGB AI
Max. obstacle clearance height	4 cm (3 cm + 1 cm)

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Suction power	32,000 Pa
Main brush type	CleanChop™ Brush 3.0
Main brush lift	Yes
Side brush lift and retraction	Yes
Mopping with detergent	Yes, single solution with 600 ml dispenser
Mop roller retraction and lift	Yes
Automatic roller cover	Yes
Battery capacity	6,400 mAh
Clean water tank capacity	5 L

Automatic roller cleaning with hot water Yes, up to 100°C

Gross weight: 18470, Net weight: 14020, Box length: 57,50, Box width: 39,50, Box height: 43,50,
