R3,602

MOVA BL10 Blender

The MOVA BL10 blender is a practical appliance for preparing drinks and simple dishes every day. It offers high power, intuitive controls, and features that truly make everyday use easier. It’s perfect for quick smoothies as well as more demanding tasks, such as crushing ice or making sauces.

Performance that delivers results

The 1200 W motor provides the power needed to blend a variety of ingredients—from soft fruits to harder items like nuts or ice. This allows the appliance to handle everyday tasks without the need for prolonged blending, saving time and ensuring a smooth, uniform consistency.

Precise texture control

Smooth speed adjustment allows you to tailor the blender’s operation to a specific recipe. In practice, this means greater control over the final result—you can create both delicate smoothies

and thicker mixtures. Additionally, the combination of touch controls and a dial makes operation intuitive and convenient.

Functions tailored for everyday use

The blender offers programs such as smoothie, ice crushing, blending, and pureeing. This eliminates the need to manually adjust settings each time—the device simplifies daily use and delivers consistent results.

Convenience and easy cleaning

The automatic cleaning function allows you to quickly rinse the jar and blades after use, reducing the need for manual washing. The parts are also dishwasher-safe, and the removable design facilitates thorough cleaning. This translates to convenience and a greater willingness to use it daily.

Thoughtful design and safety

The AS-material jug is lightweight and damage-resistant, and the absence of BPA allows for safe preparation of drinks and meals. With a 1.8-liter capacity, the blender works well for both a single person and a small family.

Included

- MOVA BL10 blender with jar
- Single-serving cup

Manufacturer	MOVA
