TRANSCEND 512MB CF Card SLC mode WD-15 Wide Temp

Model: TS512MCF180I

Manufacturer: TRANSCEND

EAN: 760557857631

Product Code: 1664367

R2,382

The Transcend CF180I is a reliable flash memory card designed for a variety of storage needs. With a storage capacity of 512 MB, it offers an efficient solution for data management. The card is compatible with various devices and features technology such as SuperMLC NAND Flash, ensuring optimal performance with read rates of 85 MB/s and write rates of 70 MB/s.
Built to withstand harsh environmental conditions, this CompactFlash Card operates reliably in temperatures ranging from -40°C to 85°C and supports humidity levels of 0 - 95%. It includes features such as garbage collection, wear leveling function support, and power loss protection, enhancing data integrity and longevity. The Transcend CF180I is a practical choice for those in need of dependable storage solutions.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
