Model: SP001TBSS3A55M28

Manufacturer: SILICON POWER COMPUTER & COMMUNICAT

EAN: 4713436121763

Product Code: 1664376

R3,990

A high-quality product for the budget-minded, the A55 is positioned as one of the most cost-effective SSD models. With its advanced SATA III 6 Gb/s interface and an affordable price, you can now easily upgrade your old computer without spending a fortune.

Still wasting precious time while booting your computer or loading applications? Then it's time to get rid of your old hard drive and switch to an SSD. Powered by SATA III 6 Gb/s interface, the A55 is able to boot your computer or launch applications within seconds.

Even new disks can contain one or more bad blocks which may cause irreparable damage to your system. But have no fear! To prevent flash memory corruption, the A55 is built with bad block management technology. Bad blocks are continually monitored and replaced to keep your system in good condition and to improve reliability and endurance of the SSD. Because they do care about your data.
