

ACT Powercord C14 IEC Lock+ Dual Locking - C15 IEC Lock+ red 2 m, PC3873 (PL0062)

Model: PL0062

Manufacturer: ACT

EAN: 8716065565935

Product Code: 1664461

R1,395

The ACT IEC Lock power cable offers locking at both ends: C15 IEC Lock+ connector on one side and the C14 IEC Lock+ Dual Locking connector on the PDU side. The C14 connector locks at the top and side, providing additional protection against accidental disconnection from the PDU. The C15 connector is high temperature resistant up to 120°.

The locking mechanism is universal and works with all major PDU brands. The PDU doesn’t need to have its own locking mechanism and no tools are required.

The IEC Lock prevents accidental disconnection/release of the cable from both the equipment and the PDU. This minimizes the risk of damage and downtime. The power cables are available in a range of colors for easy identification.
