Powerful Pan Tilt

Cover every corner flexibly with VIGI’s Pan Tilt camera. Customized patrol routes provide more intelligent and quick options to monitor key areas (up to 8 points for each route).

Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

Automatic Tracking

Continues following specified moving persons or vehicles with Pan Tilt cameras intelligently analyzing the image. Track the path efficiently when there should be little movement in the area.

Smart Detection for Efficient Monitoring

By setting the detection rules in advance, VIGI AI-powered cameras can accurately capture various abnormal events. This will greatly reduce false alarms and cover your specified monitoring needs in different scenarios.

Active Defense

Warn potential intruders instantly with sound and light when abnormal events are detected.

Two-Way Audio

With voice intercom support, carry two-way conversations while watching your feed from anywhere.

PoE & IP66

Outdoor PoE connection makes your wiring remarkably easy. Reliable IP66 enables stable outdoor performance.
