

Equip LC/LC Fiber Optic Patch Cable, OM3, 35m

Model: 255423

Manufacturer: EQUIP

EAN: 4015867244456

Product Code: 1671273

R1,369

The LC to LC fiber optic patch cable is a duplex multi-mode OM3 fiber cable designed for reliable, high-speed data transmission in enterprise and data center environments.

Equipped with LC connectors on both ends, this cable is suitable for network switches, servers, and optical transceivers in structured cabling systems that require stable short-distance optical connections.

Constructed with a 50/125µm OM3 multi-mode fiber core and ceramic ferrule connectors, the cable delivers low insertion loss and consistent signal quality. The LSZH jacket enhances safety for indoor installations, while supporting 10G Ethernet transmission distances of up to 300 meters.
