

ICY BOX IB-138SK-B-II Carrier panel Black

Model: IB-138SK-B-II

Manufacturer: ICY BOX

EAN: 4250078182979

Product Code: 1671531

R1,720

Innovative design

That the carrier can be disconnected from the mobile rack, that is nothing new. But making the carrier hermetic so it is safe for transport is. The fan is not installed as usually on the platine, but it is installed on the front of the carrier, this way the air circulation is better.

Not only a lock

What seems like a normal lock is much more than that. as long as the lock is not closed, no power will come to the HDD. In this way it is impossible to forget locking the media.

All good things are three
