

Brother TZE-SL651 label-making tape Black on gold

Model: TZESL651

Manufacturer: BROTHER

EAN: 4977766806442

Product Code: 1673937

R1,303

Brother P-touch Pro Tapes are built with tough and durable professional grade materials and adhesives. Primarily designed for long term reliable identification of CAT5e/CAT6/CAT6A networking cables that have a diameter of 3.0 to 6.6mm, this self-laminating labelling tape has been developed with a special adhesive and material that allows labels to be easily applied to cables, ensuring your future identification needs are reliably met. The TZe-SL651 provides a protective layer over the printed area for cable marking. The cost saving solution laminates text during printing, which means 24mm tape is suitable for wrapping around larger diameter CAT6a cables. Part of the Brother Pro Tape range, this self-laminating tape is compatible with selected models of professional P-touch label printers ensuring you can print ID labels quickly and efficiently.
