3M™ Peltor™ Optime™ Comfort Earmuff H510A is our slim-line earmuff with soft wide cushions for effective protection and improved comfort. Featuring a low profile cup and low profile headband design, compatibility with other personal protective equipment is increased. Noise levels in the range of 87-98 dB are reduced by up to 27 dB and the large space inside each cup reduces moisture and heat build-up.

3M™ PELTOR™ Optime™ Earmuffs offer versatile protection for both short and long duration tasks. Ideal for protection against noise arising from a wide range of applications in the workplace and leisure activities. Our ear muffs provide a low pressure fit and lightweight design, and are engineered to provide protection against noise exposure range 87-98 dB, reducing noise levels by up to 27 dB. Comfort levels are enhanced with soft wide cushions, which are easy to replace with a hygiene kit. Moisture and heat build-up are decreased thanks to the large space inside the cups, while their unique low profile headband and slim-line, dual moulded design improves compatibility with other personal protective equipment (PPE) such as 3M Eyewear and Respirators, encouraging use and compliance.
