R998

3M Aura Insulation and Hardwood Respirator 9332+ is our filtering facepiece respirator with Aura 3-panel design, adjustable nose clip, sculpted nose panel, red colour-coded headbands and 3M™ Cool Flow™ Valve for comfortable wear. Rated FFP3, it's available in a pack of two.

For respiratory protection while repairing walls, ceilings, flooring and roof or wall insulation use 3M™ Aura™ Insulation and Hardwood Respirator 9332+. Our respirator helps to provide FFP3 level protection against high level fine dusts and oil or water based mists, typically found while working with hardwood, insulation materials, mould and lead. Featuring our Aura™ 3-panel design, it's engineered to accommodate greater facial movement during speech, and the high performance

filter material is engineered to let you breathe more easily. Heat build-up is reduced inside the respirator by the 3M™ Cool Flow™ Valve removing exhaled air. The adjustable nose clip, curved low profile design and sculpted nose panel help ensure not only a secure seal and snug fit, but also a good field of vision and improved compatibility with 3M eyewear. The embossed top panel is designed to further minimise eyewear fogging, for clearer visibility with eyewear.
